

reflections of the inner self

DREAMS AND VISIONS OF NATURE

Jan van der Greef

In his book **reflections of the inner self** DREAMS AND VISIONS OF NATURE Jan van der Greef takes you on a journey into moments of Oneness, driven by his passion for nature. An experience of connectivity with all things around you, a state in which thinking, insecurities and judgment evaporate. A book with images of awe and wonder, universal wisdom and short personal experiences related to connectivity, innocence, trust, acceptance and love for oneself. The book connects you through breathtaking and sometimes mystical images with an endless feeling of pure "being" in the rhythm of life. A journey in awareness towards the essence of yourself, in which the inner and outer worlds meet and become one. A path of life towards the ultimate freedom through interconnectedness.

JAN VAN DER GREEF (1952) is internationally recognized as an innovative scientist and as a passionate nature photographer. Bridging different perspectives is the connecting theme in his work. The beauty of nature attracted him to remote places all over the world, despite his physical challenge due to polio at an early age. The gift of capturing both the emotions of the experience and the essence of nature is his signature in photography.

His photography has been awarded internationally in prestigious contests such as the BBC Wildlife Photographer of the Year and the GDT European Wildlife Photographer of the Year.
